## ClayWorks: Portfolio of Services

### Application Modernization

ClayWorks is all about harnessing the power of Power Platform, Automation, Microsoft Viva, and SharePoint to take your productivity and collaboration to the next level.

### Reporting and Dashboards

ClayWorks is focused on leveraging Power BI to deliver amazing visualizations and user experiences that help you make sense of your data and unlock new insights. From custom dashboards to real-time reporting, we're here to help you see your business in a whole new way.

### Microsoft 365 Support & Development

Ensuring your business has the expertise and resources it needs to maximize the value of Microsoft's suite of productivity tools and stay ahead of the game

### Power Platform

Red Clay service is all about empowering you with the tools and knowledge you need to build stunning, user-friendly applications that get the job done. From governance and user experience to low-code and no-code development.

### Infrastructure Modernization

At ClayWorks, we believe that your infrastructure should be as modern and efficient as your ideas. That's why our Infrastructure Modernization service is all about leveraging the latest automation, orchestration, database, virtualization, and container management tools to take your IT game to the next level.
